

Calgoo Connect - calendar software that enhances the Google Apps experience

What is it?

Use the platform you want, with no migration required!

Do you need to collaborate your schedule with friends and colleagues, but don't want to move away from the calendar client you already know and love? Calgoo Connect is for you!

Skip the hurdles of migrating to a new platform. Calgoo Connect allows you to continue using Outlook Calendar or Google Calendar, while staying in sync with your colleagues on another platform

Calgoo Connect runs in the background

- Automatically synchronizes your Google calendars with Microsoft Outlook
- Download it, install it, and it just works.
- Continue working as you already do, but with the information you need!

How do I start?

You need:

Windows 2000/XP/Vista

Java 1.5 or higher; check if you already have Java installed [here](#)

Outlook 2000 or higher
